Register of interests

I was born and brought up in Horndean and know the area well having not only lived here for some 56 years, but was Skip for 1st Horndean Scout for 7 years. I am married with two children who both went to local schools and 3 grandchildren. My interests include walking, gardening, listening to live music, travel and model engineering.

My current full time occupation is that of being the National Health, Safety and Environmental Manager for a national charity. I am responsible for the health and safety of 40,000 volunteer, 3,000 full time staff and 500 plus properties.

I hope my skills and knowledge will allow me to contribute to the wellbeing of the parish and the further development of our amenities, for both the young and older members alike.
